

Have you received a letter or a cold-call concerning energy efficiency improvements?

- Shropshire Council are aware that residents have been receiving unsolicited letters, phone calls or visits offering 'free' energy efficiency improvements.
- These contractors are not affiliated to the council or Keep Shropshire Warm.
- Offers of work are speculative, the measures suggested to you might not always be suitable for your home.
- Residents should always consider improving their insulation before installing low carbon heating.
- Residents are under no obligation to accept works.
- SUSTAINABLE WARMTH SHROPSHIRE is the only Council lead energy efficiency scheme – for more information visit www.shropshire.gov.uk/sws
